### Job Duties:

Estheticians give facial and other body treatments using specialized products and techniques.

Cosmeticians advise customers on the use of make-up and other beauty products and apply make-up to customers; may specialize in applying makeup to models or other individuals for special occasions.

Electrologists remove unwanted hair permanently from client's face or body using needle only specialized electrical hair removal equipment, laser and other equipment.

Manicurists and Pedicurists clean, shape, and polish fingernail and toenails and provide related treatments.

Scalp Treatment Specialists apply medicated lotions to treat scalp conditions and hair loss.

Tattoo Artists apply permanent designs to customer's skin, using electric needles and chemical dyes; may also apply temporary designs to customer's skin.

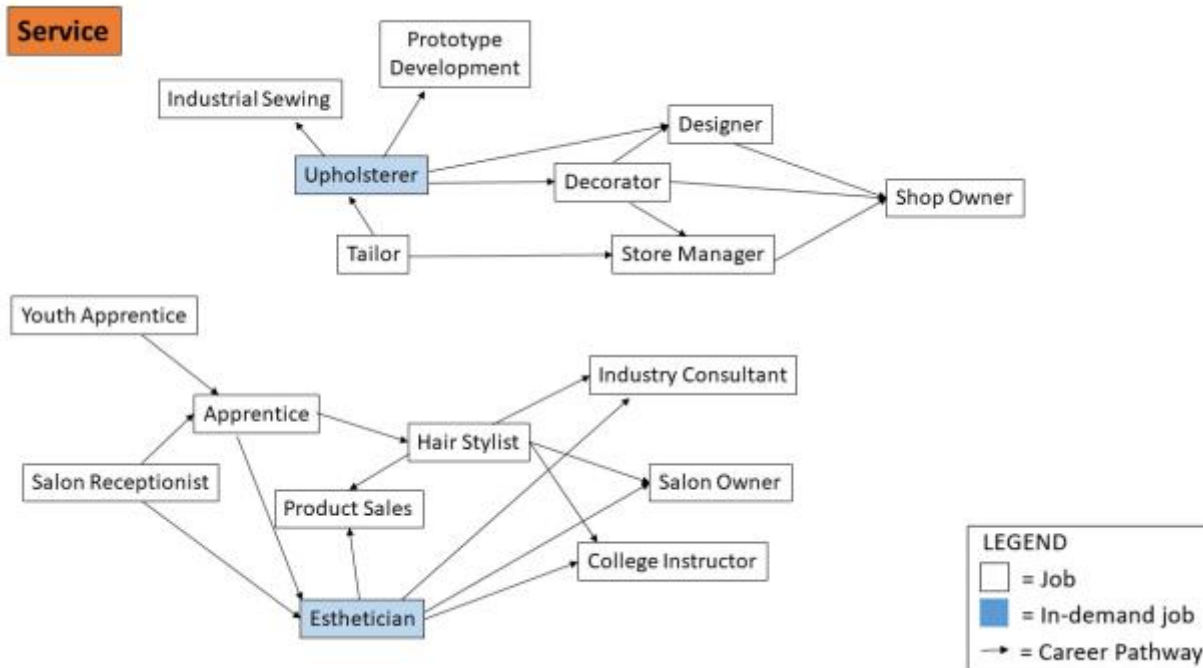

Hair Replacement Technicians (non-medical) prepare and apply custom-made hair pieces to customer's scalp, weave customer's hair to hair pieces and provide scalp treatments.

### Career Pathways:

There is little or no mobility among Estheticians, Electrologists, and related occupations in their field without additional specialized training.

They are employed in beauty salons, electrolysis studios, scalp treatment and hair replacement clinics, and other similar establishments, and in cosmetic departments of retail establishments such as pharmacies and departments stores, or they may be self-employed. Below are potential career pathways for Estheticians, Electrologists, and related occupations:

- Beauty Treatment Operator
- Cosmetician
- Electrologist
- Electrolysis Technician
- Esthetician
- Hair Replacement Technician
- Manicurist
- Pedicurist
